Title : Designing HPE Hybrid IT
Solutions

Version : DEMO

1.A customer is a cloud provider who needs a new storage array. They want a solution that has built-in multi-tenancy features.

Why should you propose HPE 3PAR StoreServ to the customer?

- A. It divides controller nodes into groups for multiple tenants.
- B. It includes the virtual domains feature as part of all-inclusive licensing.
- C. It divides drives into separate pools for multiple tenants.
- D. It includes the NPARs feature for physical separation of the array into tenant areas.

Answer: C

Explanation:
